

📍 13 Haig Street, Frankton

Sold

You'll be wondering where Haig Street is? You may have dropped your car there, or even had your mower fixed. . . this wee diamond is in a street surrounded with workshops and industrial type activity. This lovely 4 bedroom brick 1930's home is so sweet. . . it would be perfect for industrial. The layout is great - with a waiting room in the front, then side kitchen, separate toilet, and 4 rooms off the hallway. The owner has rejuvenated this darling from being run down - he's put a new color-steel roof on, new ceilings, new re-cycled kitchen, some walls replaced, brand new wiring, some new plumbing done and other tweeks to make it comfortable. The owner has loved working on this project, but is now ready to move onto the next. Its a rare opportunity to buy a brickie in such great condition. We're looking for "offers". . . so make sure you call Lisa Sigley on 021722281 or www.lisasigley.com
