## 29 Reeves Close, Fairview Downs

Step inside and you will be impressed. . . the living area enjoys plenty of sun, with a kitchen waiting for you to add your own personal flavour. The office nook is a fantastic place for homework - or if working from home - just the spot for you, without being too far away. With 3 bedrooms, with the added bonus of an ensuite off the master, who would have thought so much content in this home. Window seats in 2 of the front bedrooms -this really creates the extra space that unless you walk in - you won't get the opportunity to appreciate. Step out the back door - and yes another living area - a covered deck that opens out to a great place for the barbeque, lawn for the kids (and the pets) to play. Then the garage - currently a man cave. . . with extra space for the workshop. . . you decide. . . the car or does it work better as a home gym? The options are unlimited. Two heatpumps, a log fire - the heating and cooling are all sorted, dishwasher. . . this home really has so much on offer. Take time to view, you'd be hard pressed to find better.
