Welcome to 12a Kea Street - in the centrally located historic Frankton Railway Village. The section offers a sun soaked backyard, with plenty of lawn for children, pets and family fun. From the pretty scented roses. . to the private deck on the North, this villa has been lovingly updated and enhanced for modern living. Relocated here in 1989 - The owners have loved the clever blend of the 1920s character style, and a modern renovation with newly painted walls, new carpet/lino, new oven, rewired, replumbed, repiled and the revamped kitchen. . . your new easy living awaits. You could choose to keep the seperate dining room as it is, or maybe turn it into additional living, or a 4th bedroom. Keep warm and toasty next Winter with the cosy wood fire. . . the added bonus is - this Summer you'll be cool and refreshed with the airconditioning. When our owners first walked into the home 14 years ago they knew it would sell like hotcakes. . . and up against 4 other buyers on the first day, they gave it everything they had to own it. Fast forward to now - Peaceful, safe, nice neighbours, gorgeous bathroom, the french doors to the outdoor living, the front sun-drenched yard, the Frankton Railway Vibe, the proximity to town, parks, buses, schools and shops. . . they've loved every minute of 12a Kea Street. If you're looking for something extra special, extra sweet. . . this is an opportunity not to be missed. Call Lisa Sigley on 021722281 today to view. www.lisasigley.com
