

Sold

16 Forth Crescent, Glenview

If you are looking for your first home or you're an investor wanting to increase your rental portfolio then this little home is a cracker. The kitchen has been upgraded over the years, there is a separate laundry with a great size living area. The heating has also been upgraded with a floor standing heatpump - a must for winter heating and summer cooling. The colour scheme is neutral and fresh with a DVS system and extra insulation placed in some of the walls for extra comfort. Close to the local Kindergarten and Glenview Shopping Centre - this would make a great start for any young family. With a large single garage and a 655m² (more or less) section - there is plenty of room for the children and the pets. This little home is a must to see - give me a call to show you through.
