A family has it made here in this modern residence walking distance from Rototuna Shopping Centre and in a great spot for desired north-city schools. The brick homes gives a nod to low maintenance living, offering occupants more time to relax and enjoy life. Alfresco dining and entertaining are on the cards this summer thanks to effortless indoor-outdoor flow. The well-considered floor plan encompasses two living options, ensuring ample room to spread and have friends over. Adults can chat and socialise in one area while the kids take over the other. Blending with natural ease into the open-plan domain, the kitchen offers foodies the benefits of a scullery, gas hob and generous counter. The master suite is thoughtfully separated from the children's bedrooms, which are light-filled, boast double wardrobes and share a family bathroom with a large tub and tiled shower. A ranch slider onto the patio enhances the relaxed vibe of the master retreat. Decor shows continuity throughout and the double internal access garage rounds everything off to perfection. The grounds are trim-kept and the property is move-in ready.
